

**LETTER OF UNDERTAKING REGARDING COMPLIANCE WITH THE  
ENGINEERS AND GEOSCIENTISTS ACT, RSBC 1996, c. 116**

**WHEREAS:**

The Association of Professional Engineers and Geoscientists of the Province of British Columbia, also doing business as Engineers and Geoscientists BC (the "Association") and Milan Balun ("Balun"), agree to the following statement of facts:

- A. It is the mandate of the Association under the provisions of the *Engineers and Geoscientists Act* (the "Act") to protect the public interest in British Columbia in the practices of professional engineering and professional geoscience, including by restricting those practices to members and licensees of the Association and preventing unauthorized practice by others;
- B. In or around June, 2017, through electronic or photoduplication methods, Balun affixed the stamp of a professional engineer to unstamped copies of drawings prepared by that engineer and subsequently submitted those drawings to an authority having jurisdiction (the "Conduct");
- C. Balun has never been registered as a member of the Association and has never been licensed to practice professional engineering in British Columbia;
- D. Balun agrees that the Conduct was in breach of section 22 of the Act; and
- E. Balun has had an opportunity to seek independent legal advice regarding this matter and this Letter of Undertaking.

**THEREFORE:**

In consideration of the Association not commencing a legal proceeding in the Supreme Court of British Columbia against Balun in respect of the Conduct, Balun agrees to all of the following:

- 1. Unless and until Balun becomes a duly registered member or licensee of the Association, Balun will cease and desist from:
  - a. engaging in the practice of professional engineering;
  - b. affixing the stamp or seal of a professional engineer, or the likeness thereof, to any drawings or documents for any purpose; and
  - c. acting in any manner reasonably capable of leading a person to believe that Balun is authorized to fill the office of or act as a professional engineer in British Columbia;
- 2. Balun understands and agrees that this Letter of Undertaking or a summary of it may be published in *Innovation*, and on the Association's website, and in such other places and in such

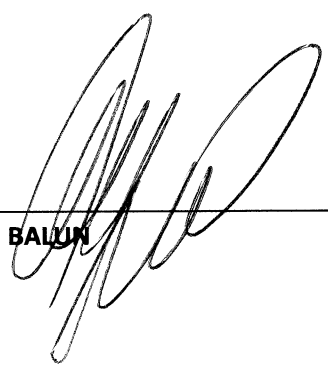

manner as the Association deems appropriate;

3. Balun understands and agrees that his breach of the terms set out in paragraph 1 above would constitute a breach of section 1 of the Act; and
4. Balun understands and agrees that the Association may refer to this Letter of Undertaking in any legal proceeding against him, in the event that he breaches any of the terms that he has agreed to in this Letter of Undertaking.
